

Innovative Finance Advisor (40-80%)

Who we are

iGravity is an advisory firm dedicated to impact investment and innovative finance solutions. The firm is specialized in both consulting services and investment advisory. On the consulting side we are specialized in the design and implementation of innovative partnerships between public institutions, private sectors and NGOs that mobilize complementary financial and technical resources to achieve the Sustainable Development Goals (SDGs).

iGravity was established in March 2017 in Zurich with the mission of connecting disruptive ideas, visionary people, institutions and capital to address some of the most pressing social issues. Our clients include family offices, international NGOs, International Organizations, asset managers, foundations and governments. We combine a start-up feeling whilst working for some of the strongest “impact” brands. The company is staffed with 5 people with strong technical expertise and background in finance, development cooperation, impact investing and philanthropy.

To further strengthen the team and support the development of our activities we are looking for an Innovative Finance Advisor based in Zurich or in a major European city.

What you will do in the role

Joining our team, you will contribute to the design, development and implementation of new innovative partnerships and financial vehicles with a particular focus on result-based financing. As part of this exciting role, you will work with the team in the research, scoping and feasibility assessment of innovative financing initiatives, building of partnerships with donors and investors, as well as in the design, modelling and implementation of interventions that address some of the world’s most pressing developmental issues. Depending on the project scope, you may be required to make short business trips to Africa or Latin America.

What we expect from you

We are looking for outspoken candidates able to think out of the box (or break the box) with *proven experience* in Innovative Finance and specifically *in the design, structuring and implementation of Development/Social Impact Bonds (DIB/SIB)*.

The successful candidate has an advanced university degree in international development, economics, public or business administration or closely related fields, as well as at least five years of relevant work experience in Development Finance, Innovative Finance or Public Finance.

We look for candidates with the following set of skills:

- Clear ambition to make a difference
- Enthusiastic and problem-solving aptitude, intuition and ability to anticipate hurdles
- Outstanding analytical thinking capability
- Ability to process large amounts of information and data from disparate sources
- An eye for high quality, accuracy and perfectly presented end product
- Entrepreneurial mind-set, ability to work autonomously, getting things done
- Experience working in international organizations/UN agencies
- Own network of investors and philanthropists.

To apply

Please email recruiting@igravity.net with your CV and a concise cover letter telling us why you are a great fit for the role. Only short-listed candidates will be contacted.
